Chicago Teamsters' Leader Says He Did His Duty as He Saw It in Recent Strike, and Is Willing to Shoulder Blame.

Philadelphia, Aug. 9—Cornelius P. Shea of Chicago, president of the International Brotherhood of Teamsters, defended his conduct of the recent strike in Chicago at to-day's session of the brotherhood's annual convention. After giving in detail the events that led up to the trouble, President Shea defended his course during the strike.

"I say to you," he said, "that I did my duty there as I saw it, and whatever responsibility is attached to the conduct of that strike I am not afraid to tell youput it on the Deciders of Shea."

President Shea came in for criticism when the report of executive members were read at the afternoon session. Michael Casey of San Francisco, third vice president of the brotherhood. In his report, characterized the strike as a "disma! failure that had brought the teamsters into disrepute." The organization." the report added.

ure that had brought the teamsters into disrepute.

"The organization." the report added. "has suffered in prestige, and it will take years to wipe out the disgrace resulting from it. It will be a mistake for this convention to whitewash the officers who were responsible for this.

'Chris F. O'Neill of Buffalo, fifth vice president, upheld President Shea in his conduct of the strike. He said that in a short time the organization will be in a otter condition than ever, and added:

"The question arises as to what the employers of Chicago have to show for the million doilars they squandered in the futile effort to disrupt our organization."

IGORROTES ON A STRIKE. BAU LUIN MARTIN War Department May Be Called Upon to Adjust Dispute. REPUBLIC SPECIAL

EFFUBLIC SPECIAL

New York, Aug. 9.—During the absence of Doctor T. K. Hunt in St. Louis the twenty-five Igorrotes of Coney Island went on strike because they were not permitted to eat dog and cook their own needs, and the rupture thus caused between the management of Luna Park and the Igorrotes has become so serious that the matter may be taken to the War Department for anjestment.

The park management has persistently refused to permit open fires to be built on its pleasure ground for the accommodation of the Igorrotes.

Neither would they accede to the wishes of the dog-enters to permit them this article of food.

During the absence of Doctor Hunt, the Igorrotes took matters into their own hands. They gave their ultimatum, which in effect was "no dog; no dence."

The upshot of this was that the village had to be closed. The Igorrotes locked themselves in their shacks and refused to come out for the edification of the Coney island crowds. Meantime the manager of Dream and let it be known to the Igorrotes that they could find cooking accommodations and plenty of dog behind their doors. Sunday morning the igorrotes took up quarters at Dreamland and have refused to return.

The Luna Park managers will seek to have the War Department step in and compel its wards to fulfill their contract or send them home.

Mr. Thompson, one of the managers of the park, denounced the dog-eating habit and characterized it as objectionable and indecent.
